Power listed is conducted. SAR compliance has been established in the laptop computer(s) configurations with USB connectors, as evaluated in this filing, and can be used in laptop computer(s) with substantially similar physical dimensions, construction, and electrical and RF characteristics. Compliance of this device in all final host configurations is the responsibility of the Grantee. This transmitter must not be collocated or operating in conjunction with any other antenna or transmitter. End-users must be provided with specific information required to satisfy RF exposure compliance for all final host devices. The highest reported SAR level is: Body: 0.32 W/kg.
